DEUS

The most versatile on the market

- **Faster signal transmission:**
 - All 4 components communicate with each other over a lightning-fast digital radio signal
 - Transmission time: 4 milliseconds versus 20-40 milliseconds (comparing other Bluetooth devices)
- **Ergonomics:**
 - Quick coil change
 - Easy detector storage

- **7 levels of reactivity:**
 - Precise adjustments for difficult terrain
 - Fast recovery = More finds
- **Pinpointer MI-6 connectivity:**
 - Target signal in the headset
 - Set up the pinpointer from the remote control
 - Remote audio recovery mode to locate lost MI-6
