

Limitless eXPloration

S TELESCOPIC Stem

1980 : Derek Ingram from Regton invented the original S-shaped metal detector stem

2010 : XP Metal Detectors developed the all new S-Shaped Telescopic stem designed for detectorists offering many key benefits:

Watch the S-shaped
Telescopic Stem in action

- **LIGHT** : From only 400gr ! (lower stem included on lite stem version)
- **TELESCOPIC** :
 - Can be deployed in seconds
 - Stem length can be adjusted in seconds
- **INTERCHANGEABLE** : removable lower stem :
 - Search coil can be changed in seconds
 - Can be stored in a Back pack in seconds
- **ERGONOMIC** :
 - Specifically designed handle position for better comfort
 - Solid feel and stability thanks to the tough rubber hand grip
