

## FEATURES/SETTINGS

Frequency Choices	22cm / 9" HF COIL : 15 / 28 / 54 kHz + shift Elliptical HF COIL : 15 / 28 / 80 kHz + shift X35 coil : 4 / 8 / 12 / 18 / 25 kHz + shift
Sensitivity	99 levels
Reactivity	4 levels
Iron tone	ON / OFF
Ground balance	Automatic mode / Manual mode
Discrimination	IAR ( Iron Amplitude Rejection) + Normal
Target ID	Audio & visual
Factory programs	x 4 + 2 customisable programs
Audio Volume	Yes on wired headphones and wireless headphones

## GENERAL FEATURES

Display screen	8192 pixels
Backlighting	Yes, very low power consumption
Wireless headphones	Yes, WS AUDIO in option, rain proof
Coil / Coil cover	DD, waterproof - wireless / Yes
Headphone storage case	Yes with WSA headphones (optional)
Batteries / Battery level indicator	Lithium polymer
Remote control battery life	19 hours
Wireless WSA battery life	15 hours
Coil life	20 to 28 hours
Charging time	Coils / WSA / Remote control : 3 H
Total weight with batteries	870 g (770g without remote control)
Total weight of stem	390 g
Weight of remote control with batteries	100 g
Weight of headphones with battery	66 g (WSA)
Weight of coil	345 g with coil cover (22cm / 9 " Coil)
Length of folded stem	58 cm
Length of deployed stem	130 cm
Waterproof coil	Yes, but an optional antenna is required for use when the coil is submerged
Warranty	5 year parts and labour, battery 2 years

## S-TELESCOPIC LITE STEM

- The ORX S-Telescopic Lite stem weighs only 320g
- Telescopic for better / fast storage
- Ergonomic for better comfort
- Quickly adjustable to search any terrain

The patented XP S-shaped stem has been designed to provide a natural forward offset of the coil, keeping it away from the user's feet. Unlike a straight stem which requires the user to lift the stem slightly while sweeping the ground in order to avoid hitting their feet, the S-shaped stem spares the user from this additional effort. This unique design feature makes XP detectors effortless and comfortable to use for extended periods, reducing fatigue and allowing you to focus on discovering treasures!

## LONGTIME® LONGIVITY LABEL

Concerned about our planet and fighting against planned obsolescence, XP Metal Detectors have obtained the Long Time label. The first European label identifying and promoting products that are designed to last. XP Metal Detectors guarantee their metal detectors for 5 years and offer repairs and spare parts for a minimum of 10 years. DEUSII®, DEUS®, FMF® ORX®, WS6 Master have all obtained the label certification. Visit [www.xpmetaldetectors.com/en/page/who-we-are.php](http://www.xpmetaldetectors.com/en/page/who-we-are.php) to learn more.

Visit [www.xpmetaldetectors.com](http://www.xpmetaldetectors.com) for more information, download the user guide for tips and technical information. Many more accessories are available. Visit an XP dealer or the XP website to see the full range and understand all the pack you can order. DEUSII®, DEUS®, FMF® ORX®, are trademarks of XP Metal Detectors. The visuals and graphics provided are solely intended for demonstrative purposes, and the actual product may differ from the depicted configurations.
