Discover the ultimate experience with GO TERRAIN

The unique application dedicated to metal detection, available to everyone regardless of the detector brand.

5 reasons to use GO TERRAIN

1. Connect your XP detector to GO TERRAIN for easier detection
2. Record your targets in real time on your routes with their ID
3. Save and consult all your routes, alone or with several people (group mode)
4. See your colleagues positions, routes and finds in real time
5. Share and expand your database for a terrain over time

Visit www.xpmetaldetectors.com for more information, download the user guide for tips and technical information. Many more accessories are available. Visit an XP dealer or the XP website to see the full range and understand all the pack you can order. DEUSII®, DEUS®, FMF®, ORX®, are trademarks of XP Metal Detectors. The visuals and graphics provided are solely intended for demonstrative purposes, and the actual product may differ from the depicted configurations.

DEUS®

XP DEUS NEVER MISSES A TARGET

Depending the target and the terrain you are detecting on, chose one of the 35 frequencies that offers the 3 different DEUS X35 coils. Whether you're searching for large, deep treasures or smaller, shallow items, the XP DEUS has the perfect frequency to suit your needs.

- Fast and **powerful**
- **35 frequencies** to adapt to all targets, all conditons
- First **fully wireless** metal detector
- The most **ergonomic** metal detector with its S-Tele-scopic stem

With a frequency range that goes up to 81 kHz, XP ORX is the ultimate tool for finding the smallest gold particles. Whether you're a seasoned gold hunter or a beginner, XP ORX has the precision and sensitivity you need to make your next big discovery. Choose XP ORX and take your gold detecting to the next level.

- Ideal **VLF metal** detector for native gold & gold coins (81 Khz!)
- **Powerful** and affordable
- **Lightest** metal detector in the world
- **Fully wireless** metal detector
